

Blanc - C1S SBS/White Folding Carton

The industry-best solution for high-impact retail packaging. A three-ply laminated board that provides durability and exceptional visual appeal. The top-ply coated SBS provides superior print surface with its blue-white color, the middle ply is natural kraft for strength and stiffness, while the backside bleached kraft liner offers strength and integrity.

Features

Benefits

Superior Runnability	Compared to micro/mini flute corrugated, this laminated construction is significantly more “press friendly” when it comes to runnability, product output, and waste.
Smooth Surface	The C1S smooth surface offers outstanding ink holdout, sheet cleanliness and consistency in graphic or packaging application to deliver a visual aesthetic that denotes high quality.
Blue-White Styling	A unique blue-white color delivers vivid colors and sharper contrast, producing eye-catching graphics.
Quality Tactile Feel	The unique fiber mix and finishing process result in high stiffness for a finished piece that feels as good as it looks.
Fade Resistance	Color fast dyes provide fade resistance, sharper graphic images and truer color reproduction for shelf life and color integrity.
